ACADEMIC ADVISING

Barnard’s model of shared advising, where faculty and administrators advise pre-major students, is one of the hallmarks of the Barnard experience. Although the responsibility of knowing the degree requirements rests with each student, advisers offer support, guidance, and a sounding board for students, helping them set goals and priorities, select courses, and understand the curriculum. Class Deans in the Dean of the College division also offer support, especially if students encounter issues or have concerns that might extend beyond the classroom.

Class Deans and Advisers

Prior to matriculation, the First-Year Team communicates academic planning and registration information to new students via email, virtual meetings and also the First-Year Blog. First-year students are encouraged to subscribe to the First-Year Blog and may submit any questions they have to first-year@barnard.edu. Students can enroll in their First-Year Experience courses over the summer, and the formal finalization of courses happens in the fall, during the Orientation and the first two weeks of class. Assistance in planning courses of study is given to first-year students and sophomores by their academic advisers with whom students are expected to schedule appointments for individual advising throughout the year.

By the second semester of sophomore year, each student chooses a major field in consultation with the Sophomore Class Dean, an adviser, and the academic department. From then on, the major adviser guides advanced study for the major.

Students are responsible for completing all degree requirements and completing 122 credits (121 credits) in order to graduate. Students who have completed the requisite number of credits and all of their Foundations and major requirements are expected to graduate.

Transfer Students

Incoming transfer students are assisted by the transfer advisers and the Transfer Advising Dean in planning their courses of study and selecting majors. Advising sessions are scheduled in the summer and during Orientation, and individual appointments may be arranged throughout the academic year. Transfer students who enter with junior class standing are guided by both transfer and major advisers during their first Barnard semester.

International Students

The Office of International Student Services (ISS) supports all international students from the moment they have been accepted up through graduation and beyond. In addition to providing advising support, ISS provides programming for international students, as well as all information and support pertaining to visas, I-20s, and other travel matters.

Study Abroad

Students who wish to study abroad for credit toward the Barnard degree are urged to meet with Barnard Global advisers and discuss their plans with their pre-major adviser early on. Students must submit the Intent to Study Abroad form by March 15th of the previous year in order to be eligible to study abroad for the semester.

Honor Code

The Honor Code, instituted at Barnard in 1912, governs all aspects of academic life and is enforced by an Honor Board that has a membership of students and faculty members, advised by the Dean of Studies Office. The Judicial Council of undergraduates, faculty, and administrators recommends disciplinary action for non-academic offenses and acts on appeals of academic disciplinary sanctions determined by the Honor Board. A more complete explanation of the system may be found online.

Each student who registers at Barnard agrees to maintain the Honor Code:

Approved by the student body in 1912 and updated in 2016, the Code states:

We, the students of Barnard College, resolve to uphold the honor of the College by engaging with integrity in all of our academic pursuits. We affirm that academic integrity is the honorable creation and presentation of our own work. We acknowledge that it is our responsibility to seek clarification of proper forms of collaboration and use of academic resources in all assignments or exams. We consider academic integrity to include the proper use and care for all print, electronic, or other academic resources. We will respect the rights of others to engage in pursuit of learning in order to uphold our commitment to honor. We pledge to do all that is in our power to create a spirit of honesty and honor for its own sake.

Addendum to Honor Code for 2020-2021

For courses delivered virtually, the COI recommends adding to your syllabus the following: The Barnard Honor Code includes relevant language for the proper use of electronic class material: We consider academic integrity to include the proper use and care for all print, electronic, or other academic resources. To be clear, this means that any recorded class content — from lectures, labs, seminars, office hours, and discussion groups — is the intellectual property of your professor and your fellow students, and should not be distributed or shared outside of class.

Graduate School Advising, Combined Plan Programs, 4+1

In addition to meeting with academic advisers, interested in studying beyond the undergraduate level, or pursuing a 4+1 pathway with Columbia University in Engineering, Public Health, Quantitative Methods in Social Sciences, the Harriman Institute, the School for International and Public Affairs, or other programs, should consult with Beyond Barnard. Students interested in 4+1 pathways specifically must first attend a Beyond Barnard information session for the appropriate 4+1 pathway(s). From there, they can schedule individual time with both Beyond Barnard and with appropriate faculty advisers.

Students interested in medical school or any other training for the health professions (vet, nursing, pharmacy, etc.), should consult with the Health Professions Advisor at Beyond Barnard. For students pursuing medical school, there are many courses they should be taking at Barnard to develop the core competencies necessary to success on the MCAT and in medical school. To that end, students should work with their academic advisers to plan on taking a full year of Biology, a full year of Chemistry (following Barnard’s entire Chem sequence, OR Columbia’s, but not both), a full year of Physics, requisite Calculus courses, one semester of Biochemistry, as well as one Psychology course, two writing-intensive
courses in a humanities field (preferably English), and other coursework as well.

Students interested in law school, business school, and other graduate school programs (PhD's, master's degrees, etc.) can consult with Beyond Barnard.
