ECONOMICS

1019 Milstein Learning Center
212-854-3454
Department Administrator: Regina Roberts

Mission
The primary aim of the Barnard Economics Department is to provide undergraduate liberal arts students with a rigorous, broad, and critical program in theoretical and empirical economics. To achieve this aim our curriculum

- Provides a thorough grounding in neoclassical economic theory, modern statistical method, and their applications in the traditional fields of economic science;
- Embeds that training in a broader conception of economic science and method with special emphasis on philosophical, historical, and institutional approaches that link economics with other social sciences and humanistic disciplines;
- Compares and contrasts alternative methodological approaches and types of evidence as ways of analyzing economic phenomena, evaluating policy debates, and assessing the broader social and political consequences of economic doctrines.

Student Learning Outcomes for the Economics Major, Economics and Political Economy Tracks

Having successfully completed the major in Economics, the student will be able to attain the following outcomes:

1. Show fluency in the basic concepts, models and tools of microeconomic and macroeconomic theory;
2. Think critically about economic phenomena and economic debates by using multiple kinds of texts, evidence and conceptual approaches;
3. Apply economic reasoning to understand the causal determinants of economic events, empirical regularities, and policy proposals;
4. Apply basic skills of empirical reasoning to economic problems;
5. Demonstrate knowledge of the history of economic thought, including important doctrines, their historical context, transformation over time, and influence on contemporary economic theory and ideas;
6. Demonstrate understanding of institutions, organizations and markets in their roles of coordinating economic activity;
7. Demonstrate knowledge of the historical origins of capitalism, modern economic growth and development, patterns of inequality, and globalization;
8. Articulate a well-defined research question and conduct independent research using economic reasoning and evidence;
9. Communicate economic ideas effectively in written or oral form.

Specific to the Economics Track

1. Understand and apply statistical techniques to make inferences about economic hypotheses.

Specific to the Political Economy Track

1. Use concepts or methods from at least one disciplinary approach other than economics to analyze an economic, political or other social problem.

Barnard will allow a total of 3 points AP credit in Economics only if the following conditions are satisfied: an AP score of 4 or 5 in either Macro or Micro (or both), or an International Baccalaureate (IB) score of 5 or higher. However, students who receive AP credit for economics and who go on to pursue any of the economics department majors (or an economics minor) must still take ECON BC1003 INTRO TO ECONOMIC REASONING or its equivalent. For Statistics, Barnard will allow 3 points credit with a score of 5 on the Statistics AP exam. Economics track majors, however, will not be exempt from the statistics requirement ECON BC2411 STATISTICS FOR ECONOMICS or the equivalent, even if they receive 3 points AP credit for Statistics.

Chair: Randall Reback (Professor)

Professors: Elizabeth Ananat (Mallya Professor of Women and Economics), André Burgstaller, Alan Dye, Daniel Hamermesh (Distinguished Scholar), Sharon Harrison, Lalith Munasinghe, Rajiv Sethi, David Weiman (Alena Wels Hirschorn '58 Professor)

Associate Professors: Ashley Timmer (Adjunct), Homa Zarghamee

Assistant Professors: Belinda Archibong, Martina Jasova, Sonia Pereira (Adjunct), Rena Rosenberg (Adjunct), Elham Saeidinezhad (Term), Anja Tolonen

Adjunct Associate: John Park

Other officers of the University offering courses listed below:

Professors: Alessandra Casella, Yeon-Koo Che, Pierre-Andre Chiappori, Graciela Chichilnisky, Donald Davis, Prajit Dutta, Harrison Hong, Wojciech Kopczuk, Serena Ng, Brendan O’Flaherty, Xavier Sala-i-Martin, Bernard Salanie, Stephanie Schmitt-Grohe, Martin Uribe, Michael Woodford, David Weinstein

Associate Professor: Lena Edlund, Qingmin Liu

Assistant Professors: Michael Best, Andres Drenik, Jack Willis

Lecturers: Irasema Alonso, Tri Vi Dang, Ceyhun Elgin, Susan Elmes, Seyhan Erden, Tamrat Gashaw, Sunil Gulati, Ronald Miller, Wouter Vergote

Requirements for the Major

There are two tracks for the major in Economics equal in rigor, but different in scope and focus. The track in Economics emphasizes modern economic theory along with associated analytical and mathematical tools. The track in Political Economy emphasizes the roots of modern economics in the history of economic thought and the interconnections between social forces, political institutions, and economic power. Either track offers excellent preparation for graduate study in a variety of professional schools and professional careers in many areas, including business and public administration.

Prospective majors should discuss their programs with any member of the department no later than the second semester of their sophomore year. At the time of declaring the major, the student meets with the department chair and chooses a major adviser, who will advise her on the choice of program and courses. Students planning to major in Economics or Political Economy should complete both intermediate macro- and microeconomic theory by the beginning of their junior year.

Students who wish to complete a double or joint major that includes Economics should consult the chair of the department or the major adviser as early as possible. Students interested in pursuing a Ph.D. in economics should take more mathematics than required for the economics major or choose the Economics and Mathematics
interdisciplinary major. Any interested student should seek guidance from the Economics and/or Mathematics faculty on which mathematics courses to take.

All majors should file the "Major Requirements Declaration" form, available from the department office by the end of their sophomore year, or as soon as possible thereafter.

**Economics**

The Economics track requires a minimum of 12 courses (36 minimum credits).

Three electives in economics, two of which must be upper-level (that is, they must have intermediate micro- or macroeconomic theory as a prerequisite).

One of the following two options:

- ECON BC3061 SENIOR THESIS I and SENIOR THESIS II
- ECON BC3063 SENIOR SEMINAR (and an additional upper-level elective in economics)

* Students will not receive credit for ECON BC1007 MATH METHODS FOR ECONOMICS if they have already taken ECON BC3035 INTERMEDIATE MICROECONOMIC THEORY. Such students must instead complete the mathematics requirement by taking MATH UN1201 CALCULUS III (Calculus III).

**Political Economy**

The Political Economy track major requires a minimum of 13 courses (42 minimum credits).

</table>

Three electives in economics, two of which must be upper-level electives (that is, they must have intermediate micro- or macroeconomic theory as a prerequisite).

Two interdisciplinary electives (see further conditions below)

And one of the following two options:

**Interdisciplinary Electives**

*NOTE: Statistics is required for Political Economy track majors in the class of 2021 and later. It replaces one of the three interdisciplinary electives formerly required for the class of 2020 and earlier.*

Linking interdisciplinary electives to economics electives: If a course is “linked,” this means that it addresses subject matter that is related to the subject matter of the economics elective to which it is paired. There are many possible ways to link a course to an economics elective. A link to some suggestions from the department website is given below. Whether a course qualifies as a linked course must be approved by the student’s major adviser.

**Related Areas of Study**

**Departments**

- Anthropology
- Asian and Middle Eastern Cultures
- Environmental Science
- History
- Philosophy
- Political Science
- Psychology
- Sociology
- Spanish and Latin American Cultures
- Women’s Studies

**Regional or Interdisciplinary Programs**

- Africana Studies
- American Studies
- Human Rights Studies
- Jewish Studies
- Science and Public Policy
- Urban Studies

**Suggestions for Linking Interdisciplinary Electives to Economics Electives**

Follow this link for a list of suggestions for Interdisciplinary Electives that link to Economics Elective Courses. It is NOT an exhaustive list. You should feel free to propose alternative courses that form similar links. All linked courses must be approved by the student’s major adviser.

**Mathematics Training for the Major**

The department expects all majors to have a working knowledge of arithmetic, high school algebra, and the fundamentals of analytic geometry.

Majors in the economics track may complete the mathematics requirement by taking ECON BC1007 MATH METHODS FOR ECONOMICS, or MATH UN1101 CALCULUS I and MATH UN1201 CALCULUS II. Students who have received advanced placement credit or have placed out of Calculus I may take either Math Methods or Calculus III to
complete the requirement. (Students with 5 on the Calculus BC test may begin with Calculus III.)

 Majors in the political economy track may complete the mathematics requirement by taking ECON BC1007 MATH METHODS FOR ECONOMICS or MATH UN1101 CALCULUS I. Students who have received advanced placement college credit for calculus have satisfied the mathematics requirement for the political economy track, however they must take an additional economics elective as a substitute for the AP credit so that the total number of courses taken for the major remains the same.

 Students interested in pursuing a Ph.D. in economics should take more mathematics than required for the economics major or choose the Economics and Mathematics interdisciplinary major. Any interested student should seek guidance from the Economics and/or Mathematics faculty on which mathematics courses to take.

 Requirements for the Minor

 The minor in economics consists of five courses, including ECON BC1003 INTRO TO ECONOMIC REASONING or equivalent, ECON BC3033 INTERMEDTE MACROECONOMC THEORY or ECON BC3035 INTERMEDTE MICROECONOMIC THEORY, and three electives, one of which must have an intermediate micro- or macroeconomic theory course as a prerequisite.

 Introductory Courses

 The principles of economics; may be taken without previous study of economics.

 ECON BC1003 INTRO TO ECONOMIC REASONING. 4.00 points.
 Covers basic elements of microeconomic and macroeconomic reasoning at an introductory level. Topics include Individual Constraints and Preferences, Production by Firms, Market Transactions, Competition, The Distribution of Income, Technological Progress and Growth, Unemployment and Inflation, the Role of Government in the Economy.
 Note: Students cannot get credit for ECON BC1003 if they have taken the Columbia introductory course ECON W1105 Principles of Economics.

 General Courses

 May be taken with minimal previous study of economics.

 ECON BC2010 The Economics of Gender. 3 points.
 Examination of gender differences in the U.S. and other advanced industrial economies. Topics include the division of labor between home and market, the relationship between labor force participation and family structure, the gender earnings gap, occupational segregation, discrimination, and historical, racial, and ethnic group comparisons.

 ECON BC2017 INTRODUCTION TO HEALTH ECONOMICS. 3.00 points.
 Prerequisites: (ECON BC1003 or ECON UN1105)
 Prerequisites: (ECON BC1003 or ECON UN1105) This course covers the core microeconomic theories and concepts needed to understand health and health care issues in the United States. It describes how the markets for health and health services are different from those for other goods, with an emphasis on providing the tools and skills for understanding health policy and regulations. In addition, it discusses theoretical and empirical aspects of key health economics issues, with a primary focus on applying the tools of economic analysis to understand the basic forces—supply and demand, asymmetric information, incentives, and externalities, for example—that influence health policies.

 ECON BC2020 Introduction to Development Economics. 3 points.
 Students will be introduced to current issues within development economics, and to fundamental economic concepts explaining economic growth. It will discuss the crosscutting themes of gender equality and environmental sustainability, while approaching topics within economic growth, population growth, human capital, health, agriculture, urbanization, natural resources, conflict, and institutions.

 ECON UN2029 FED CHALLENGE WORKSHOP. 1.00 point.
 Prerequisites: (ECON UN1105)
 Prerequisites: (ECON UN1105) The workshop prepares students to compete in the annual College Fed Challenge sponsored by the Federal Reserve. Topics covered include macroeconomic and financial conditions, monetary policy, financial stability and the Federal Reserve System.

 Course Number  Section/Call Number  Times/Location  Instructor  Points  Enrollment
 ECON BC1007  001/00737  T Th 10:10am - 11:25am  LI03 Diana Center  Mulu Gebreyohannes 4.00 56/60

 ECON UN2029  001/13908  W 12:10pm - 2:00pm  503 Hamilton Hall  Tamrat Gashaw 1.00 13/54
ECON BC2075 Logic and Limits of Economic Justice. 3 points.

Prerequisites: Introduction to Economic Reasoning (ECON BC 1003) or Principles of Economics (ECON W1105). An introductory course in political theory or political philosophy is strongly recommended, but not required.

Introduce students to problems of economic justice under capitalism.
Course has three goals: (1) expose students to debates between economics and philosophers about the meaning and nature of justice, (2) explore conflict between efficiency and justice, (3) examine implications of justice for gender equality, intergenerational equity and climate change.

STEM BC2223 PROGRAMMING BEHAV SCIENCES. 4.00 points.

ECON BC2224 CODING MARKETS. 4.00 points.
Prerequisites: (ECON BC1003 or ECON UN1105)
Prerequisites: (ECON BC1003 or ECON UN1105) Students will learn how to write computer programs that can be used to solve assignment problems, including matching buyers with sellers in electronic financial markets, as well as assignment problems that dont involve prices: matching organ donors with recipients, residents with hospitals, and students with high schools for example. The programming language used will be MATLAB. Suitable for students with little or no programming background

ECON BC2590 MEASURING HISTORY. 4.00 points.
This course examines big themes in economic and social history-population history and human well-being, inequality and poverty, and gender differences. Using these themes, it adopts a hands-on data-driven approach to introduce tools and concepts of empirical reasoning. Datasets related to each theme create opportunities for learning by doing

Quantitative Methods
These courses are required for the Economics track and are optional for the Political Economy track.

ECON BC2411 STATISTICS FOR ECONOMICS. 4.00 points.
Elementary computational methods in statistics. Basic techniques in regression analysis of econometric models. One-hour weekly recitation sessions to complements lectures

ECON BC3018 ECONOMETRICS. 4.00 points.
Prerequisites: ECON BC3033 or ECON BC3035, and ECON BC2411 or STAT W1111 or STAT W1211, or permission of the instructor.
Prerequisites: ECON BC3033 or ECON BC3035, and ECON BC2411 or STAT W1111 or STAT W1211, or permission of the instructor.
Specification, estimation and evaluation of economic relationships using economic theory, data, and statistical inference; testable implications of economic theories; econometric analysis of topics such as consumption, investment, wages and unemployment, and financial markets

Core Theory Courses
The courses listed below, required of both Political Economy and Economics track majors, constitute the core of the Barnard Economics major.

ECON BC3033 INTERMEDIATE MACROECONOMIC THEORY. 4.00 points.
(Description for summer and semester course) This course introduces macroeconomic theory for the analysis of aggregate variables such as income, employment, prices, and the interest rate. The first part of the course is devoted to studying the determination of the aggregate demand in the goods markets and the equilibrium of monetary markets, using an IS-LM model extended with elements of the banking sector and the open-economy framework. Next, the supply-side of the economy is examined with special attention to the labor market, wage setting and price setting behavior. The Phillips Curve (PC) introduces the tradeoffs between inflation and unemployment, and the role of expectations for inflation dynamics. The integrated IS-LM-PC model is then used to evaluate macroeconomic policies that aim at stabilizing the economy with output produced at its potential level and the inflation rate at the central bank target. The recent episode of high inflation is simulated with a proper numerical calibration of the IS-LM-PC model
ECON BC3035 INTERMEDIATE MICROECONOMIC THEORY. 4.00 points.
Prerequisites: An introductory course in microeconomics or a combined
macro/micro principles course (ECON BC1003 or ECON W1105, or the
equivalent) and one semester of calculus or ECON BC1007, or permission
of the instructor. Preferences and demand; production, cost, and supply;
behavior of markets in partial equilibrium; resource allocation in general
equilibrium; pricing of goods and services under alternative market
structures; implications of individual decision-making for labor supply;
income distribution, welfare, and public policy. Emphasis on problem
solving.

ECON BC3041 THEORETICAL FOUNDATIONS-POLIT ECON. 3.00 points.
Prerequisites: An introductory course in economics or permission of the
instructor. Intellectual origins of the main schools of thought in political
economy. Study of the founding texts in classical political economy.
Marxian economics, neoclassicism, and Keynesianism.

### Upper-Level Elective Courses

The following economics elective courses have as a minimum either
ECON BC3033, ECON BC3035, or both as prerequisites.

ECON BC3010 American Wellbeing. 3 points.
Prerequisites: (ECON BC 2411 or STAT W1111 or PSYCH BC1101 or
BUSI G6014 or STAT W1211 or SIEO W3600 or SIEO W4150) and (ECON
BC1003 or ECON W1105) Students using this course for an economics
major must have also previously completed either Intermediate
Microeconomic Theory (ECON BC3035) or Intermediate Microeconomics
(ECON UN3211).
This course takes a novel approach to examining public policy concepts.
The class mission is to construct a “U.S. Wellbeing Index,” a measure
of people’s wellbeing in the United States. The process of constructing
such an index and debating its shortcomings will provide students with
a better understanding of the factors that should guide public policy
decisions. Students successfully completing this course will: (1) develop
skills for conducting and interpreting cost-benefit analyses, (2) search
the web for relevant economic data and write efficient, well-documented
code to download and format those data, (3) interpret time trends
for data concerning the economy, human health, and environmental
conditions, (4) develop an understanding of how various types of risks
affect both individual and societal wellbeing, and (5) understand multiple
perspectives in debates over the importance of equity considerations
when considering the wellbeing of a society.

ECON BC3011 INEQUALITY AND POVERTY. 3.00 points.
Prerequisites: ECON BC3035 or ECON BC3033, or permission of the
instructor. Conceptualization and measurement of inequality and poverty,
poverty traps and distributional dynamics, economics and politics of
public policies, in both poor and rich countries.

### Fall 2024: ECON BC3011

### ECON BC3012 THE ECONOMICS OF EDUCATION. 3.00 points.
Prerequisites: ECON BC3035 and ECON BC2411 or permission of the
instructor. Analyzes education policies and education markets
from an economic perspective. Examines challenges that arise when
researchers attempt to identify the causal effects of inputs. Other topics:
(1) education as an investment, (2) public school finance, (3) teacher
labor markets, (4) testing/accountability programs, (5) school choice
programs, and (6) urban public school reforms

**ECON BC3013 Economic History of the United States. 3 points.**

Prerequisites: ECON BC3035 or ECON BC3033, or permission of the
instructor.
Economic transformation of the United States from a small, open
agrarian society in the late colonial era to the leading industrial economy
of the 20th century. Emphasis is given to the quantitative, institutional,
and spatial dimensions of economic growth, and the relationship
between the changing structures of the economy and state.
ECON BC3019 LABOR ECONOMICS. 3.00 points.
Prerequisites: ECON BC3035, or permission of the instructor.
Prerequisites: ECON BC3035, or permission of the instructor. Factors affecting the allocation and remuneration of labor; population structure; unionization and monopsony; education and training, mobility and information; sex and race discrimination; unemployment; and public policy
Fall 2024: ECON BC3019
Course Number Section/Call Times/Location Instructor Points Enrollment
ECON 3019 001/00489 T Th 10:10am - 11:25am 302 Barnard Hall Lalith Munasinghe 3.00 55/60

ECON BC3022 Economic History of Europe. 3 points.
Prerequisites: ECON BC3035 or Econ BC 3033 (or their equivalents), or permission of the instructor.
An introduction to the transformative economic developments that began in Western Europe and spread globally. This course applies economic and empirical reasoning to analyze the industrial revolution, its underlying causes and consequences, from pre-modern times to the 20th-century emergence of a global economy.

ECON BC3024 MIGRATION # ECONOMIC CHANGE. 3.00 points.
Prerequisites: ECON BC3035 or Econ BC 3033
Prerequisites: (Econ BC 3035) or (Econ BC 3033) This course examines a wide variety of topics about migration and its relationship to economic development, globalization, and social and economic mobility. At its core, this course reflects a key reality: that the movement of people—within regions, within countries, and across borders—is both the result of and impetus for economic change.

ECON UN3025 FINANCIAL ECONOMICS. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201 Institutional nature and economic function of financial markets. Emphasis on both domestic and international markets (debt, stock, foreign exchange, eurobond, eurocurrency, futures, options, and others). Principles of security pricing and portfolio management; the Capital Asset Pricing Model and the Efficient Markets Hypothesis
Spring 2024: ECON UN3025
Course Number Section/Call Times/Location Instructor Points Enrollment
ECON 3025 001/13910 M W 10:10am - 11:25am 428 Pupin Laboratories Tamrat Gashaw 3.00 61/125

ECON BC3026 Economics of the Public Sector. 3 points.
Prerequisites: (ECON BC3035 or ECON UN3211)
The purpose of the course is to think about public policy issues through an economic lens. We will explore the basic economic foundations of individual decision-making and discuss the ways in which economists hypothesize that individuals respond to the incentives embedded within public policies. We will pay particular attention to the nature and detail of existing public policies, and use economic analysis to predict how these policies might influence behavior. We will also explore some of the relevant empirical literature on a set of policy topics, to see how these predictions hold up.
Fall 2024: ECON BC3026
Course Number Section/Call Times/Location Instructor Points Enrollment
ECON 3026 001/00487 M W 1:10pm - 2:25pm 504 Diana Center Elizabeth Ananat 3 50/50

ECON BC3029 EMPIRICAL APPROACHES DEVLPMNT. 3.00 points.
Prerequisites: (ECON BC3035 or ECON BC3033) and ECON UN3412
ECON BC3035 or ECON BC3033 and Econometrics, or permission of the instructor.
Examination of new challenges in the global economy from unequal income distribution and poor institutions to health epidemics and natural disasters. Accessing and analyzing real-time and historic data to understand the current global economy. Applied econometric techniques.
Spring 2024: ECON BC3029
Course Number Section/Call Times/Location Instructor Points Enrollment
ECON 3029 001/00779 T Th 2:40pm - 3:55pm 203 Diana Center Anja Tolonen 3.00 22/30

ECON BC3031 Economics of Life. 3 points.
Prerequisites: ECON BC3035 ECON BC3018 Econometrics previously or concurrently taken is highly recommended.
This course covers an immense variety of topics in what might be called demographic economics. Included are dating and marriage, along with the economics of beauty; fertility and its avoidance; how people use their time, and what determines those uses, including some discussion of labor-force behavior; interactions among family members—bargaining in the household and with family members outside the household; divorce; the economics of addiction, to such agents as alcohol, other drugs, tobacco and even work; religion, including its effects on economic outcomes; and death, including how we die, how long we live, and the nature and determinants of bequests. The central unifying feature throughout the course is the concentration on the economics of these activities and outcomes—the roles of incentives and institutions in affecting them.

ECON BC3038 INTERNATIONAL MONEY # FINANCE. 3.00 points.
Prerequisites: ECON BC3033. Introduction to balance of payments and exchange rate theory; capital mobility and expectations; internal and external adjustment under fixed and flexible exchange rates; international financial markets; capital mobility and expectations; international policy coordination and optimum currency areas; history of the international monetary system

ECON BC3043 Monetary Theory # Policy. 3.00 points.
Prerequisites: ECON BC3033 and ECON BC3035
This course deals with topics in both monetary theory and monetary policy and is designed for students interested in monetary economics and/or those aiming at working in policy institutions such as central banks. Monetary economics examines the relationship between real economic variables at the aggregate level and nominal variables (such as the inflation rate, nominal interest rates, nominal exchange rates, and the supply of money). Therefore, monetary economics overlaps significantly with macroeconomics. However, students in this class learn the "Money View" framework as their analytical tool as it provides a more in-depth treatment of money and central banking than is customary in standard macroeconomics textbooks.

ECON BC3048 Introduction to Behavioral Economics. 3.00 points.
Prerequisites: ECON BC3035
This course reviews the assumption of rationality in microeconomic theory and presents evidence (primarily from experimental psychology and economics) of how judgement and decision-making systematically deviate from what rationality predicts.

ECON BC3098 GUIDED RESEARCH IN ECONOMICS. 1.00-2.00 points.
1 or 2 points
Prerequisites: Instructor's permission
Prerequisites: Instructors permission Provides students with the experience of participating in the research process by matching them to a faculty mentor who will put them to work on one of his or her current research projects.

Prerequisites: ECON UN3211 and ECON UN3213

ECON GU4230 ECONOMICS OF NEW YORK CITY. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201
This course takes New York as our laboratory. Economics is about individual choice subject to constraints and the ways that choices sum up to something often much more than the parts. The fundamental feature of any city is the combination of those forces that bring people together and those that push them apart. Thus both physical and social space will be central to our discussions. The underlying theoretical and empirical analysis will touch on spatial aspects of urban economics, regional, and even international economics. We will aim to see these features in New York City taken as a whole, as well as in specific neighborhoods of the city. We will match these theoretical and empirical analyses with readings that reflect close observation of specific subjects. The close observation is meant to inspire you to probe deeply into a topic in order that the tools and approaches of economics may illuminate these issues in a fresh way.

ECON GU4325 ECONOMIC DEVELOPMENT OF JAPAN. 3.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
Prerequisites: ECON UN3211 and ECON UN3213
Prerequisites: ECON UN3211 and ECON UN3213 The growth and structural changes of the post-World War II economy; its historical roots; interactions with cultural, social, and political institutions; economic relations with the rest of the world

ECON GU4370 POLITICAL ECONOMY. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201 or POLS 4710 for those who declared prior to Spring 2014.
The objective of this course is to develop understanding of how political institutions and behavior shape economic outcomes, and vice versa.
Starting from the micro level study of political behavior, we will build up to analyze the internal workings of institutions and ultimately macro level economic and political outcomes. During the course we will cover the following topics: • Voting • Limits and potential of markets • Public goods provision • Redistribution

ECON GU4480 GENDER # APPLIED ECONOMICS. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213
This course studies gender gaps, their extent, determinants and consequences. The focus will be on the allocation of rights in different cultures and over time, why women’s rights have typically been more limited and why most societies have traditionally favored males in the allocation of resources.

ECON GU4750 GLOBALIZATION # ITS RISKS. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213
The world is being transformed by dramatic increases in flows of people, goods and services across nations. Globalization has the potential for enormous gains but is also associated to serious risks. The gains are related to international commerce where the industrial countries dominate, while the risks involve the global environment, poverty and the satisfaction of basic needs that affect in great measure the developing nations. Both are linked to a historical division of the world into the North and the South-the industrial and the developing nations. Key to future evolution are (1) the creation of new markets that trade privately produced public goods, such as knowledge and greenhouse gas emissions, as in the Kyoto Protocol; (2) the updating of the Breton Woods Institutions, including the creation of a Knowledge Bank and an International Bank for Environmental Settlements.
